Indiana Association of Soil and Water Conservation Districts, Inc.
Annual Business Meeting
Virtual Meeting via Zoom
Tuesday, January 12, 2021

MINUTES

Prior to the meeting, at 9:08 am, Joe Schmees explained the guidelines regarding this virtual meeting and the use of the voting platform, Slido.

1. Welcome and Introductions ..................................................Roger Wenning

President Roger Wenning called the 78th meeting of the Indiana Association of Soil and Water Conservation District, Inc. (IASWCD) to order at 9:13 am. He welcomed and introduced the executive officers, Bobby Hettmansperger, Vice President; Marc Roberts, Treasurer; Jeff Baker, Secretary; and, Jamie Scott, Past President. He also introduced Ed Frazier, Parliamentarian.

Roger explained that during the meeting that once a motion is made and seconded, if there is no dissent, then, it will pass. If someone wants to discuss or dissent, please speak up and the assembly will discuss it.

2. Seating of Delegates / Roll Call..........................................Jeff Baker

Jeff stated that 59 delegates were present. Roger stated that this is a quorum as one-third have been counted.

Roger referred to the proposed meeting rules in the front of the 2021 Delegate Notebook and that they are somewhat different this year due to having this meeting in a virtual format. A vote was taken to adopt the Procedures and Rules. More than two-thirds voted to adopt these rules.

A request was announced to include (“seat”) a Madison County delegate. After no objections from the floor, the delegate was included (“seated”).

3. Minutes of 2020 Annual Business Meeting..............................Roger Wenning

Roger stated that the minutes were approved during the February 6, 2020 IASWCD Board Meeting in accordance to a bylaw amendment made in 2019.
4. Treasurer’s Report.................................................................Marc Roberts

Treasurer Marc Roberts welcomed everyone. Marc briefly explained the new Urban Conservation Agreement with a CWI grant to help provide match as well as districts. Marc thanked the districts who were able to step up and support this program. Marc further stated that all but two counties paid IASWCD annual dues; that expenditures are holding steady and that you could find the 2021 proposed budget in the Delegate Notebook.

President Roger Wenning stated that the Treasurer’s report would be filed.

5. Audit Committee Report .........................................................Marc Roberts

1. Resolution Title: Supervisor Per Diem
   o Submitted by: Elkhart County SWCD
   o Bobby read the resolution title

- Vote was taken: 63 votes received; 57% yes; 43% no
- **Resolution adopted**

### 2. Resolution Title: Annual Meetings – Options for 2020 and Beyond

- Submitted by: Noble County SWCD

- Discussion from assembly:
  - Brad Ponsler, Jennings County asked if this is passed, will we need to go to the legislator to complete this?
  - Roger stated he did not know the answer to this question.
  - Joe Schmees stated we would have to look at change in code. Joe stated that he had talked to Katie Nelson and Jordan Seger, ISDA. They mentioned that we would have to look at all options or change code. Want to look at ways to get accomplished without changing code; look at short term without code change; look at long term to see if code changes are needed.
- Andy Ambriole, Huntington County stated that they think this is unnecessary; several counties planning virtual; other states do not have annual meeting requirements and their programs are not good; we have options other than doing away with annual meeting requirement;
- Ed Frazier stated that this might require by-law change.
- Joe Schmees addressed Ed’s statement stating that this is state law not IASWCD by-laws
- Cathy Becker, Wayne County, wanted clarification on what the resolution is asking;
- Roger re-read the resolution
- Ryan from Noble County stated that they are wanting alternative options; want to continue in-person meetings, but want other options for times when the county doesn’t allow in-person;
- Stacey McGinnis, Noble County, stated that finding a location has been difficult; need options on what we can legally do and not do; need stronger guidance for future;
Joe Schmees mentioned public access laws and voting make this issue a little more complicated.

Cathy Becker, Wayne County, read a text message from Tara Henry (ISDA) stating that virtual annual meetings are permissible this year for districts;

No other comments were made.

IASWCD Resolution Process

Updated 2012

Resolutions may be submitted by any local soil and water district(s) (SWCD) or IASWCD committee. Resolutions will be reviewed to make sure they fit the required criteria below. These resolutions will be provided to all 92 local soil and water conservation districts. All resolutions will then be voted on at the Annual Business meeting.

All resolutions formally adopted will remain in effect for five years. Resolutions will sunset five years after adoption and thereafter no longer reflect IASWCD positions, unless otherwise reinstated by a new vote. Therefore, the resolution must again go through the process as stated above. The IASWCD will maintain a log of all resolution sunset dates and make this available to the SWCDs.

Required Criteria for any IASWCD Resolution:

- The resolution should have regional/state/or national significance.
- The resolution should address an issue that is timely and/or pressing concern to Indiana SWCDs
- The resolution should delineate desired outcomes/goals/timeline of action.
- The resolution should be in line with the goals, priorities and mission of the IASWCD.
- The resolution should be in line with the goals and priorities of IASWCD staff resources.

Resolution Flow Chart

Resolutions due to IASWCD office → Resolutions reviewed for meeting criteria → All submitted Resolutions due to SWCDs in November → Resolutions voted on at SWCD business meeting at Annual Conference → Approved resolutions sent to NACD for consideration as requested
Title of Resolution: Term Limits for the State Soil Conservation Board (SSCB)

Submitted by: Darci Zolman, Kosciusko Co SWCD Program Administrator

Contact Person: Jamie Scott, Kosciusko Co SWCD Vice Chair

Explanation of Problem(s) or Need(s): Members of the SSCB serve a vital role in the Conservation Partnership. However, the current process for nominating and appointing representatives does not require the nomination of new members over time. Although this does bring experience to the board by allowing members to serve multiple terms, it does potentially inhibit the appointment of qualified candidates to bring in new ideas, leading to board stagnation.

Proposed Solution: The proposed solution is that IASWCD, working with SSCB, ISDA and Purdue, determine an appropriate term limit for board members as well as, create the strategy to put these term limits into place.

Benefits Expected: The instituting of term limits for the SSCB will lead to greater board member diversity, as well as, the infusion of new ideas and perspectives. The required limit would also result in ISDA, IASWCD and Purdue proactively seeking potential new board members, making them more active participants in the SSCB process.

Action Requested (Please specify the action you would like the association to take if this resolution passes): Be it resolved that the Indiana Association of Soil and Water Conservation Districts, Inc. work with ISDA, SSCB and Purdue to determine an appropriate term limit for board members and the best strategy to implement such term limits.

Supervisor Signatures (Recommend a majority of Supervisors signed):

David Ransbottom, Kosciusko County SWCD Board Chair
Jamie Scott, Kosciusko County SWCD Board Vice Chair
Ryan Martin, Kosciusko County SWCD Board Secretary/Treasurer
Stan Moore, Kosciusko County SWCD Board Supervisor
Jewel Wise, Kosciusko County SWCD Board Supervisor

Date Signed: September 7, 2021
The State Soil Conservation Board (SSCB) is established in Indiana Code, under Title 14, and includes members with the qualifications as defined:

**IC 14-32-2-2 (Members)**

*Sec. 2. The board consists of the following seven (7) members:*

(1) Four (4) members who must be land occupiers with farming interests, appointed by the governor.

(2) Three (3) members who must be land occupiers with nonfarming interests, appointed by the governor.

**IC 14-32-2-3 (Qualifications of members)**

*Sec. 3. (a) A majority of the seven (7) appointed members of the board must have experience as district supervisors.*

(b) In making appointments to the board, the governor may invite and consider the recommendations of the following:

(1) The Purdue University cooperative extension service.

(2) The Indiana state department of agriculture.

(3) The Indiana Association of Soil and Water Conservation Districts.

(c) All appointments to the board shall be made without regard to political affiliation.

(d) The members appointed to the board under section 2(1) and 2(2) of this chapter must be residents of at least four (4) different geographic regions of Indiana.

**IC 14-32-2-4 (Term for members)**

*Sec. 4. The term of an appointed member of the board is four (4) years. An appointed member shall serve until a successor is appointed and has qualified. The terms shall be staggered so that at least three (3) members are appointed every two (2) years.*

While there is a term for the appointed members, there is not a limit to how many successive terms a member may serve. According to Board Source, a board resource organization, “Term limits help prevent board[s] from burning out by shortening the duration of their commitment. Term limits also enable the board to adjust its [makeup] to suit changing organizational needs and help from ineffective [members].” By instituting a limit on consecutive board member terms, the SSCB would have the potential to be infused with more diversity and new ideas on a regular basis. It would also put pressure on partners to be more proactive in considering potential members.

ARTICLE 32. SOIL AND WATER CONSERVATION

Chapter 1. Legislative Policy

Conservation declarations

Sec. 1. The following are declared as a matter of legislative determination:

(1) That the land and water resources of Indiana are among the basic assets of Indiana and that the proper management of these resources is necessary to protect and promote the health, safety, and general welfare of the people of Indiana.

(2) That improper land use practices and failure to control and use rainfall and runoff water cause and contribute to deterioration and waste of these resources of Indiana.

(3) That the breaking of natural grass, plant, and forest cover has interfered with the natural factors of soil stabilization, causing loosening of soil and exhaustion of humus and developing a soil condition that favors excessive runoff and erosion, with the following results:

(A) The topsoil is being blown and washed out of the fields and pastures.
(B) There has been an accelerated washing of sloping fields.
(C) These processes of erosion by wind and water speed up with removal of the topsoil, exposing the less absorptive, less protective, less productive, and more erosive subsoil.

(4) That valuable water resources are being lost causing damages in watersheds.

(5) That failure by a land occupier to properly manage the soil and water causes a washing and blowing of these resources onto other land and makes the conservation of these resources on the other land more difficult.

(6) That the consequences of soil erosion and failure to control and use rainfall and runoff water are the following:

(A) The silting and sedimentation of stream channels, reservoirs, dams, ditches, and harbors.
(B) The loss of fertile soil material.
(C) The piling up of soil on lower slopes and the deposit over alluvial plains.
(D) The reduction in productivity or outright ruin of bottom land by flooding and overwash of poor subsoil material, sand, and gravel swept out of the hills.
(E) The deterioration of soil and the soil's fertility, deterioration of crops grown, and reduction in crop yields.
(F) The loss of soil and water that causes destruction of food and cover for wildlife.
(G) A blowing and washing of soil into streams and lakes that silts over spawning beds and destroys water plants, diminishing the food supply of fish.

(H) A diminishing of the underground water reserve and loss of surplus rainfall runoff causing water shortages, intensifying periods of drought, and causing crop failures.

(I) An increase in the speed and volume of rainfall runoff, causing severe and increasing floods.

(J) Economic hardship for those attempting to farm land that is eroded or subject to frequent flooding.

(K) Damage to roads, highways, railways, farm buildings, and other property from floods and from dust storms.

(L) Losses in navigation, hydroelectric power, municipal water supply, recreational water development, irrigation developments, farming, and grazing.

(7) That to conserve soil and water resources, control and prevent soil erosion, protect water quality, reduce flood damage, and further the conservation development, use, and disposal of water, it is necessary that:

(A) land use practices contributing to soil and water wastage, water quality impairment, and soil erosion be discouraged and discontinued; and

(B) appropriate soil and water conserving land use practices and works of improvement for flood prevention or the conservation development, use, and disposal of water be adopted and carried out.

(8) That among the procedures necessary for widespread adoption are the following:

(A) Carrying on of engineering operations such as the construction of flood preventing reservoirs and channels, terraces, terrace outlets, check dams, dikes, ponds, ditches, and similar operations.

(B) The use of soil protecting agronomic practices, such as strip cropping, contour cropping, and conservation tillage.

(C) Land irrigation.

(D) Seeding and planting of sloping, abandoned, or eroded land to water-conserving and erosion-preventing plants, trees, and grasses.

(E) Forestation and reforestation.

(F) Rotation of crops.

(G) Soil stabilization with trees, grasses, legumes, and other thick-growing, soil-holding crops.

(H) Retardation of runoff by impounding the runoff water behind structures, by increasing the absorption of rainfall, and by retiring from cultivation all steep, highly erosive areas and areas already badly eroded.

(I) The use of water quality protection practices, including nutrient and pesticide management on all lands.

Chapter 7. Duties of Department

IC 14-32-7-1
Policy of department

Sec. 1. (a) The general assembly recognizes the following:

1. That the land resource of Indiana, including the principal elements of geology, landscape, and soils, is one (1) of the basic natural resources of Indiana.
2. That an ever increasing demand upon the fixed and limited land resource is resulting from a growing population, with the accompanying expansions in commercial, industrial, transportation, recreation, and cultural development and the continuing need for an adequate agricultural base for the production of food and fiber.
3. That conservation of the land resource is essential to protect and promote the public health, safety, and welfare.
4. That the task of conservation can only be accomplished through a factual knowledge and understanding of the land resource.

(b) Therefore, it is the policy of the general assembly that the state promote and participate in the conservation of the land resource of Indiana by doing the following:

1. Providing new or expanded means for the securing, development, and furnishing to land use decision makers of adequate factual knowledge concerning the geology, landscape, and soils of Indiana, including their potentials, limitations, and interrelationships, in the manner set forth in this chapter.
2. Strengthening the capabilities of local soil and water conservation districts.
3. Expanding the level of small watershed planning for soil and water conservation measures.

IC 14-32-8-8
Matching funds from division of soil conservation

Sec. 8. (a) In addition to funds provided to a district under section 7 of this chapter or from any other source, the division of soil conservation shall pay to the district one dollar ($1) for every one dollar ($1) the district receives:

(1) from a political subdivision; or

(2) if a district receives no funding from a political subdivision, from any other funding source.

The board shall consider funds received from a source referred to in subdivision (2) as qualifying for matching payments under this subsection.

(b) Except as provided in section 8.2 of this chapter, the state is not obligated to match more than ten thousand dollars ($10,000) under this section.

(c) In order to receive funding under this section each year, a district must certify to the division of soil conservation the amount of money the district received from all sources described in subsection (a)(1) or (a)(2) during the one (1) year period beginning January 1 of the previous year. The information prepared under this subsection must be part of the annual financial statement prepared and provided to the board under IC 14-32-4-22. The division of soil conservation shall make distributions under this section not later than July 15 of each year.

(d) Before making distributions under this section, the division of soil conservation shall determine the total amount of money that has been certified by all districts as having been provided by sources described in subsection (a)(1) or (a)(2). If the cumulative amount to be distributed to all districts exceeds the amount appropriated to the fund, the division of soil conservation shall reduce the distribution to each district proportionately.

(e) A district must spend money received under this section for the purposes of the district.

IC 14-32-8-8.2
Limit on matching funds from division if district territory is larger

Indiana Code 2016
than one county
Sec. 8.2. (a) This section applies to a district if, as the result of:
(1) the merger of two (2) or more districts; or
(2) the changing of the boundaries of one (1) or more districts
under IC 14-32-6.5;
the territory of the district is larger than the entire area of one (1) county.
(b) The limit in section 8(b) of this chapter on the funds from political subdivisions that the state may be obligated to match shall be adjusted under this section in the case of a district described in subsection (a).
(c) If the territory of a district includes the entire area of two (2) or more counties, the limit on the funds from political subdivisions that the state may be obligated to match is ten thousand dollars ($10,000) multiplied by a whole number equal to the number of counties whose entire area is included in the territory of the district.
(d) If the territory of a district includes some of but less than the entire area of a particular county, the limit on the funds from political subdivisions that the state may be obligated to match is the sum of:
(1) ten thousand dollars ($10,000) multiplied by a percentage equal to the percentage of the particular county's entire area that is included in the territory of the district; plus
(2) either:
(A) ten thousand dollars ($10,000), if the territory of the district also includes all the area of one (1) other county; or
(B) the figure calculated under subsection (c), if the territory of the district also includes all the area of two (2) or more counties.
As added by P.L.95-2016, SEC.5.

IC 14-32-8-8.3
Limit on matching funds from division if district territory is smaller than one county
Sec. 8.3. (a) This section applies to a district if, as the result of:
(1) the merger of two (2) or more districts; or
(2) the changing of the boundaries of one (1) or more districts
under IC 14-32-6.5;
the territory of the district is smaller than the entire area of one (1) county.
(b) The limit in section 8(b) of this chapter on the funds from political subdivisions that the state may be obligated to match shall be adjusted under this section in the case of a district described in subsection (a).
(c) If the territory of a district contains less than the entire area of one (1) county, the limit on the funds from political subdivisions that the state may be obligated to match is the product of:
(1) ten thousand dollars ($10,000); multiplied by
(2) a percentage equal to the percentage of the county's entire
area that is included in the territory of the district.

As added by P.L.95-2016, SEC.6.

IC 14-32-8-9

IV. FUNDING

Seeking additional annual funding avenues for SWCD's (2018)

That IASWCD would explore annual funding for the SWCD's by assisting to establish a container tax that can be implemented on all plastic containers manufactured to hold chemical, agricultural and food grade liquid products.

*Updated Actions:*
- This item was referred to and discussed at the SWCD Funding Task Force meetings held in 2018.
- The Task Force has considered this item along with other possible ideas. However, the main focus has been moved toward water use fees. A similar approach to a container tax did not make it out of committee during the 2019 legislative session.

V. IASWCD STRUCTURE AND FUNCTION

VI. INDIANA CONSERVATION PARTNERSHIP

Conservation Plan Requirement to Receive USDA Subsidizes (2020)

That IASWCD advocate for a requirement in the State of Indiana that all agricultural producers requesting PLC, ARC and Crop Insurance Premium Reduction Subsidies meet with their local NRCS District Conservationist and Soil and Water Conservation District to establish a conservation plan. A task force shall be created to determine the feasibility of implementing a conservation plan requirement for the aforementioned subsidies, similar to the current requirements to participate in Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) programs.

*Updated Actions:*
- As a national level topic, the resolution was submitted to the NACD resolution process. During the 2020 NACD annual meeting the resolution was changed to be supportive of the promotion of conservation planning for subsidy programs, but not to require them. More discussion with USDA NRCS and other national level partners are needed, especially as the next Farm Bill is drafted.

Feral Swine Eradication (2018)

That IASWCD should partner with USDA-APHIS Wildlife Services’ Feral Swine task force to keep abreast of the spread and control efforts that are in place. We should continue to provide education to districts about existing laws regarding harboring and hunting feral swine for sport and coordinate eradication efforts with neighboring districts be they local or across state lines.

*Updated actions: Feral Swine Eradication has been added as part of the NACD policy book at the national level. NACD and Districts across the nation lobbied for inclusion in the 2018 USDA Farm Bill. In the 2018 Farm Bill, $75 million was designated to establish a “feral swine...*
eradication and control pilot program” over the next five years to help landowners with trapping and to use modern technology to control feral hogs. While Indiana is not one of the pilot states, the program is being monitored for effectiveness and will provide an avenue for future efforts.

Benefits of Working with Indiana Colleges & Universities (2017)

That IASWCD work legislatively to remove the limiting language from Title 14, Article 32, Chapter 5, Number (6) from Indiana Code for Conservation Districts or work out a MOU between parties that addresses the issue/concern without opening Indiana Code.

Updated Actions:
- COMPLETE
- A MOU was drafted and signed by the Indiana Association of Soil and Water Conservation Districts, Purdue University Cooperative Extension, and the State Soil Conservation Board. This MOU clarifies that Purdue University's College of Agriculture does not interpret "cooperation" to require that SWCDs must include Purdue University personnel in order to engage in research or Extension teaching activities with other institutions or agencies.

VII. INDIANA STATE DEPARTMENT OF AGRICULTURE

VIII. INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

IX. INDIANA DEPARTMENT OF NATURAL RESOURCES

X. LAND USE

XI. LEGISLATION

Establishment of Legislative Task Force Addressing Invasive Plants (2020)
That the IASWCD will assume leadership in establishing the formation of a Legislative task force to determine the legislature’s role in addressing invasive plant species, particularly on private land.

Updated Actions:
- Bill was created during the 2020 legislative session to create a summer study committee. It passed out of committee unanimously in the Senate, but died in the House. The proposed topic may have been a casualty of the COVID-19 pandemic, as not many topics were assigned.
- IASWCD was successful in getting invasive species designated as a topic of a Rural Caucus meeting, with a speaker from the Indiana Invasives Initiative and SICIM.

Clean Water Indiana Funding Limitation Expansion (2018)
That IASWCD sponsor legislation to revise Indiana District Law to allow Clean Water Indiana funding to be allocated in accordance with the natural resource priorities of the Indiana State Soil Conservation Board.
Updated Actions:
- Bill was created during the 2019 legislative session to change CWI language. The bill did not get a committee hearing.

XII. PLANNING AND ZONING

XIII. SWCDs

Supervisor Per Diem (2021)
That IASWCD advocate for an opportunity or option for districts to be able to compensate supervisors at a level the county is willing to pay.

Updated Actions:
- This would require a change in district code. In the 2021 session, this was discussed with other agency partners that may need “cleanup” changes in our Title 14 of the code. With the primary focus of COVID in the 2021 General Assembly, we did not find much support for this change. It will be revisited prior to the 2022 General Assembly.

Annual Meetings – Options for 2020 & Beyond (2021)
That IASWCD advocate moving forward with supporting, developing, and implementing procedures for an “alternate option” to conducting an in-person annual meeting for all Indiana SWCDs.

Updated Actions:
- IASWCD monitored requirements from the state through communications with ISDA.
- IASWCD worked to provide virtual platform (Zoom) to districts for hosting virtual annual meetings in 2021.
- IASWCD monitored legislation that allowed for virtual meetings of special districts in the 2021 General Assembly. Legislation passed, and IASWCD will review to see how it may be used for future meetings.

XIV. WATER QUALITY

State and County Soil and Nutrient Loss Estimates (2020)
That the IASWCD request the ICP (NRCS, ISDA, IDEM and USGS) to work cooperatively to formulate annual soil and nutrient loss estimates at the state and county level

Updated Actions:
- No progress was made in 2020 and 2021, primarily delayed by the COVID-19 pandemic. This will be revisited with ICP partners in 2022.
